

## SPECIFICATIONS

Model	B.T.U. Input	Size			For Use in Trailers—	
		L	W	D	W/Max. Floor Thickness of	Up to
108C	6,500	16	11	8½	2⅝"	17' long
211	8,950	18	12	11¼	3"	26' long

The usage recommended is merely a guide. Carlson Industries does not guarantee that the furnaces listed above will keep ALL trailers warm in extreme low temperatures.

Approved for use with Bottled Gas. Propane is recommended due to Butane not working properly under 30° and freezing at 18°F.

Installation: Preferable location — in front of wardrobe, ahead of axle.

ALHAMBRA, CALIFORNIA

## Better HEAT Distribution throughout your trailer

Natural circulation of warm air provides comfortable heat — floor to ceiling, end to end. Eliminates drafts, cold pockets and cold floors.

**HEAT YOUR TRAILER  
COMPLETELY AND EFFICIENTLY  
WITHOUT USING WALL SPACE!**

### FEATURES

#### **VENTED . . .**

All fumes are discharged outside the mobile home under trailer. Air within mobile home is never contaminated by furnace fumes. No stack required.

#### **WELDED HEATING CHAMBER . . .**

Burner completely sealed from living space by welded heating chamber. Air for combustion is taken from outside mobile home through openings in bottom of furnace.

#### **PILOT LIGHT . . .**

Furnished for ease of turning on heat when wanted.

#### **SAFETY SHUT-OFF VALVE . . .**

Valve provided to automatically shut off gas supply to burner and pilot if flame goes out for any reason.

#### **OUTER SHELL . . .**

Made of non-corrosive, rust-proof, stainless steel — to insure long life of furnace.

#### **FUEL . . .**

Bottled gas. (Propane recommended)

#### **EASY TO INSTALL . . .**

In new or old trailers. CARLSON FURNACE is completely factory assembled.

#### **EASY TO CLEAN . . .**

Remove grill and liner — use vacuum cleaner or damp cloth.

#### **A.G.A. APPROVED . . .**

The 108C and 211 CARLSON FLOOR FURNACES have been approved by the American Gas Association for installation in trailer coaches and mobile homes.
